Certificate III in Food Processing (FDF30111)

This course will provide you with the knowledge and skills to work safely and effectively in a food processing environment. It’s designed with the emphasis on problem solving, leadership, production systems, and HACCP principles. Completing this food processing qualification will enhance skills of employees for a more productive business.

Successful completion of the course will equip you for employment in a range of food processing industries, such as grain processing, beverages (including juices, soft drinks, cordials), confectionery, dairy processing, fruit & vegetables, grocery products & supplies (including honey, jams, spreads, sauces, dressings, condiments, spices, edible oils and fats and pasta) and poultry.

Take your career to the next level.

7 Core Themes

- Food Safety
- Workplace Safety
- Quality and Compliance
- Teamwork
- Processes and Improvement
- Production and Packaging
- Customer Service and Stock

Delivery

The program duration is a 12 month course and is a blended delivery model that incorporates face-to-face workshops, work placement, self-paced study and mentoring.

For students who require additional time to complete the course, a 6-month extension can be applied for.

This training is delivered with Victorian & Commonwealth Government Funding. We actively tailor training for people from diverse backgrounds, including those with disabilities, and encourage all to apply. This nationally recognised qualification is delivered by Stirling Institute of Australia (TOID 211132). The qualification does not guarantee a job.
